Derived from Ammonium Nitrate, MAP, DAP, Dicalcium Phosphate and Potassium Sulfate			

YaraMila TURF ROYALE 21-7-14: Quality Turf - Start to Finish

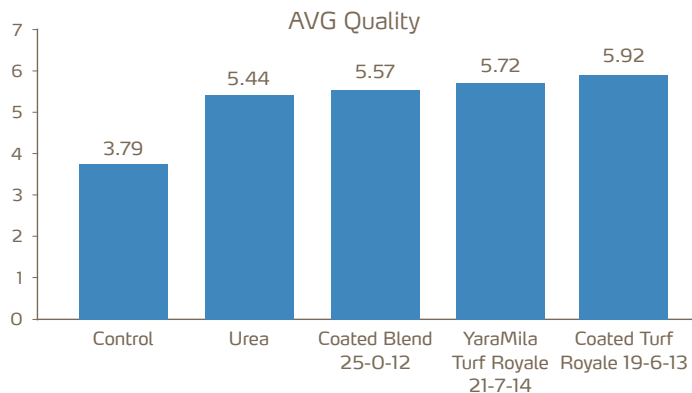

Professional Turf and Landscape Fertilizer

Get a good start with TURF ROYALE 21-7-14 when establishing quality turf or feeding ornamentals. TURF ROYALE 21-7-14 provides N, P, and K the right way – ammonium and nitrate nitrogen, 100% available phosphate, and potassium and sulfate-sulfur in every prill.

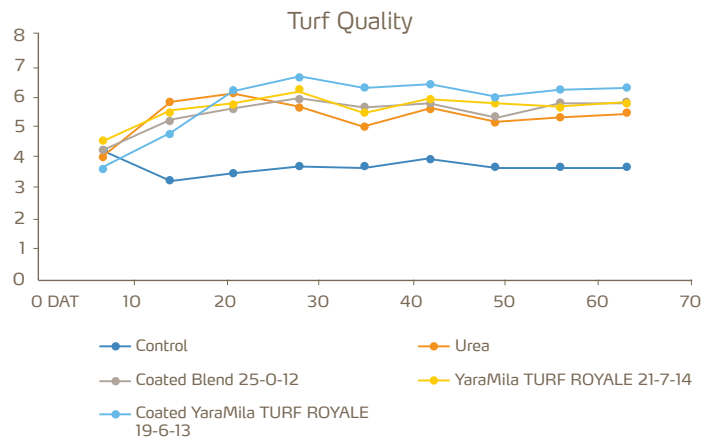

YaraMila TURF ROYALE 21-7-14 homogeneous fertilizer is a perfect 3-1-2 ratio for stimulating growth and enhancing root health. This product is far superior to blends, even controlled release blends. Supplying readily available nutrients to turf during high growth demand periods are critical.

Benefits

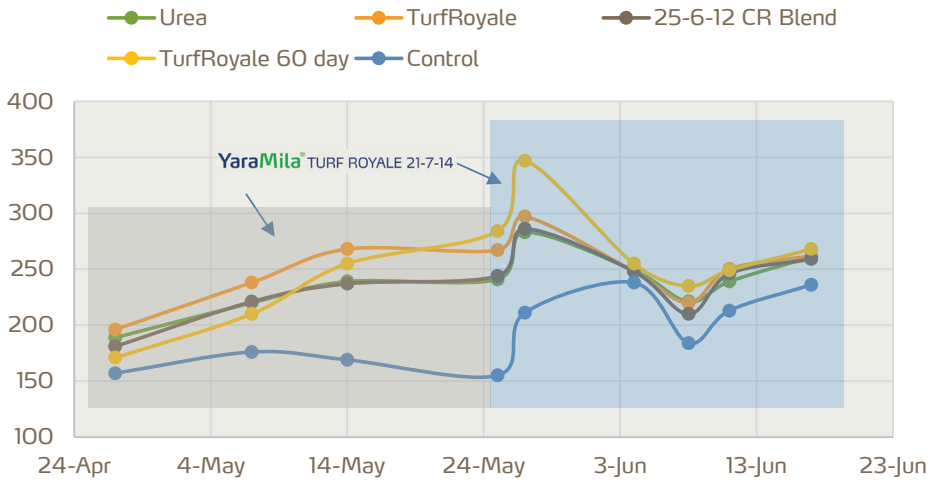

- Homogeneous, dust free prills with ideal N-P-K-S ratio for high performance sports turf.
- High concentration, with 2 types of nitrogen: Nitrate for quick response and Ammonium for lasting feeding.
- Low salt index, very safe for turf.
- Easy and accurate calibration.
